

XIAOMI Smart Pet Feeder

24-hour automatic feeding for pets

automatic feeding | Waterproof and fresh |
Hassle-free distribution | Intelligent scene link

Automatic dispensing with fixed timing and amount of food

Scientific nutrition management around the clock

Pairing with Mi Home/Xiaomi Home app, you can check the dispensing time and dispensed amount from anywhere. In this way, you can make your travels more enjoyable and the feeding of your pets more comfortable and scientific.

Hassle-free delivery system

Regular delivery times

Unique six-grid dispensing structure, flexible soft silicone food mixer and dispensing blades; Tested over 10,000 distribution cycles* to ensure smooth distribution through a wide channel that effectively avoids bottlenecks.

Six-grid dispensing structure for constant amount dispensing

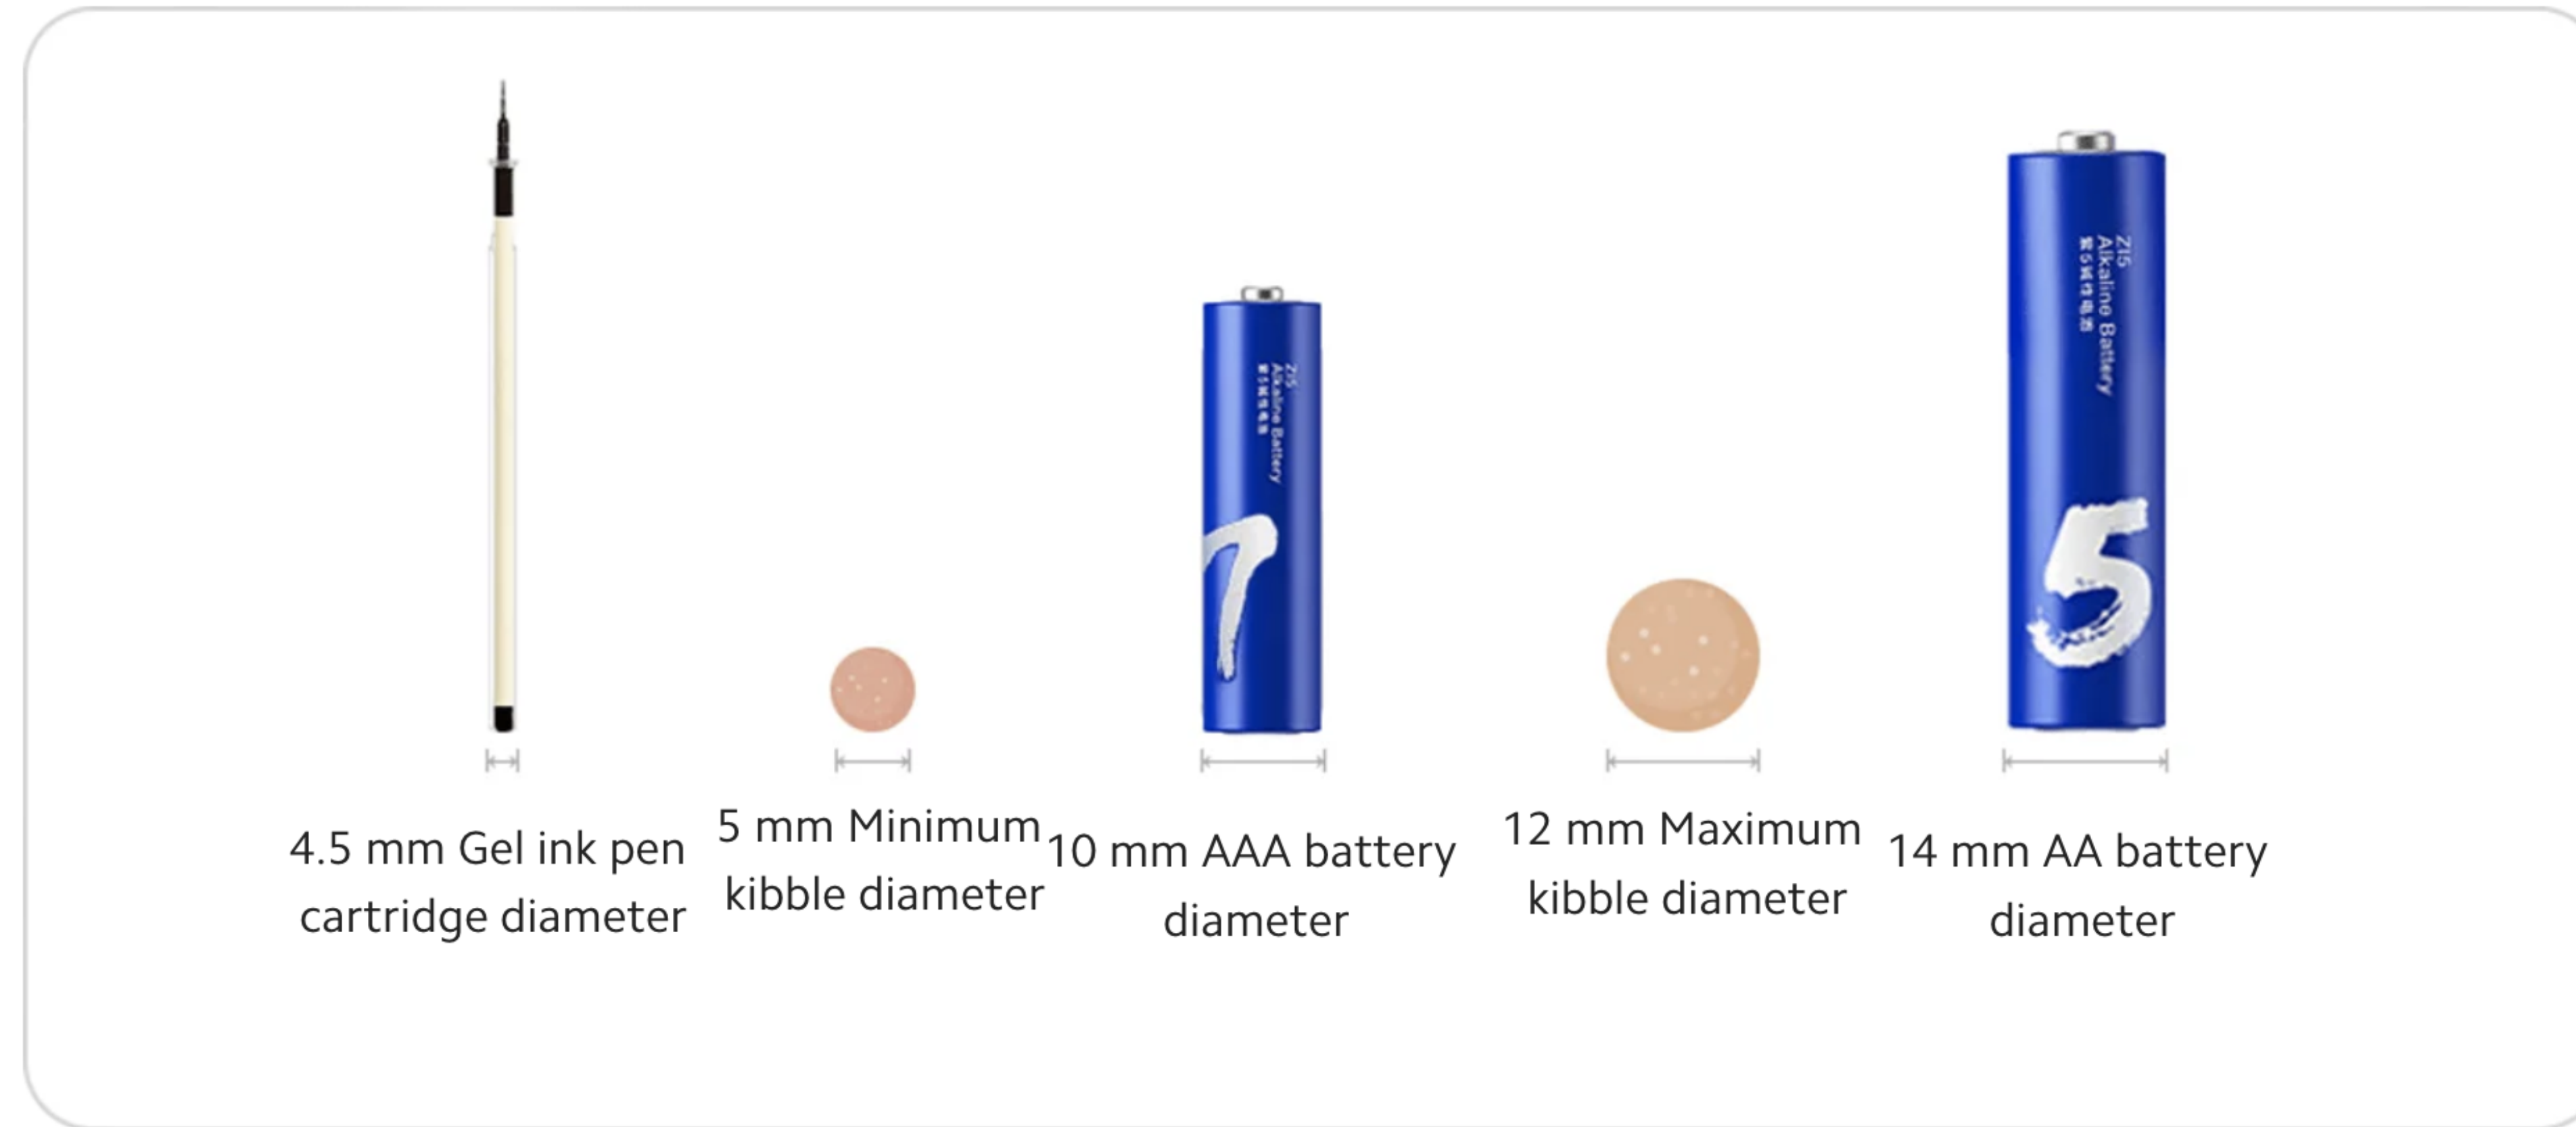

Hassle-free food mixer + blades

Wide distribution channel for different dry foods for pets

Maximum kibble diameter: 5 - 12 mm

Extremely large or small kibbles in diameter can cause clogging. Not suitable for freeze-dried or specially shaped food.

Customized smart pet feeding solution

Connecting to Mi Home/Xiaomi
Home app

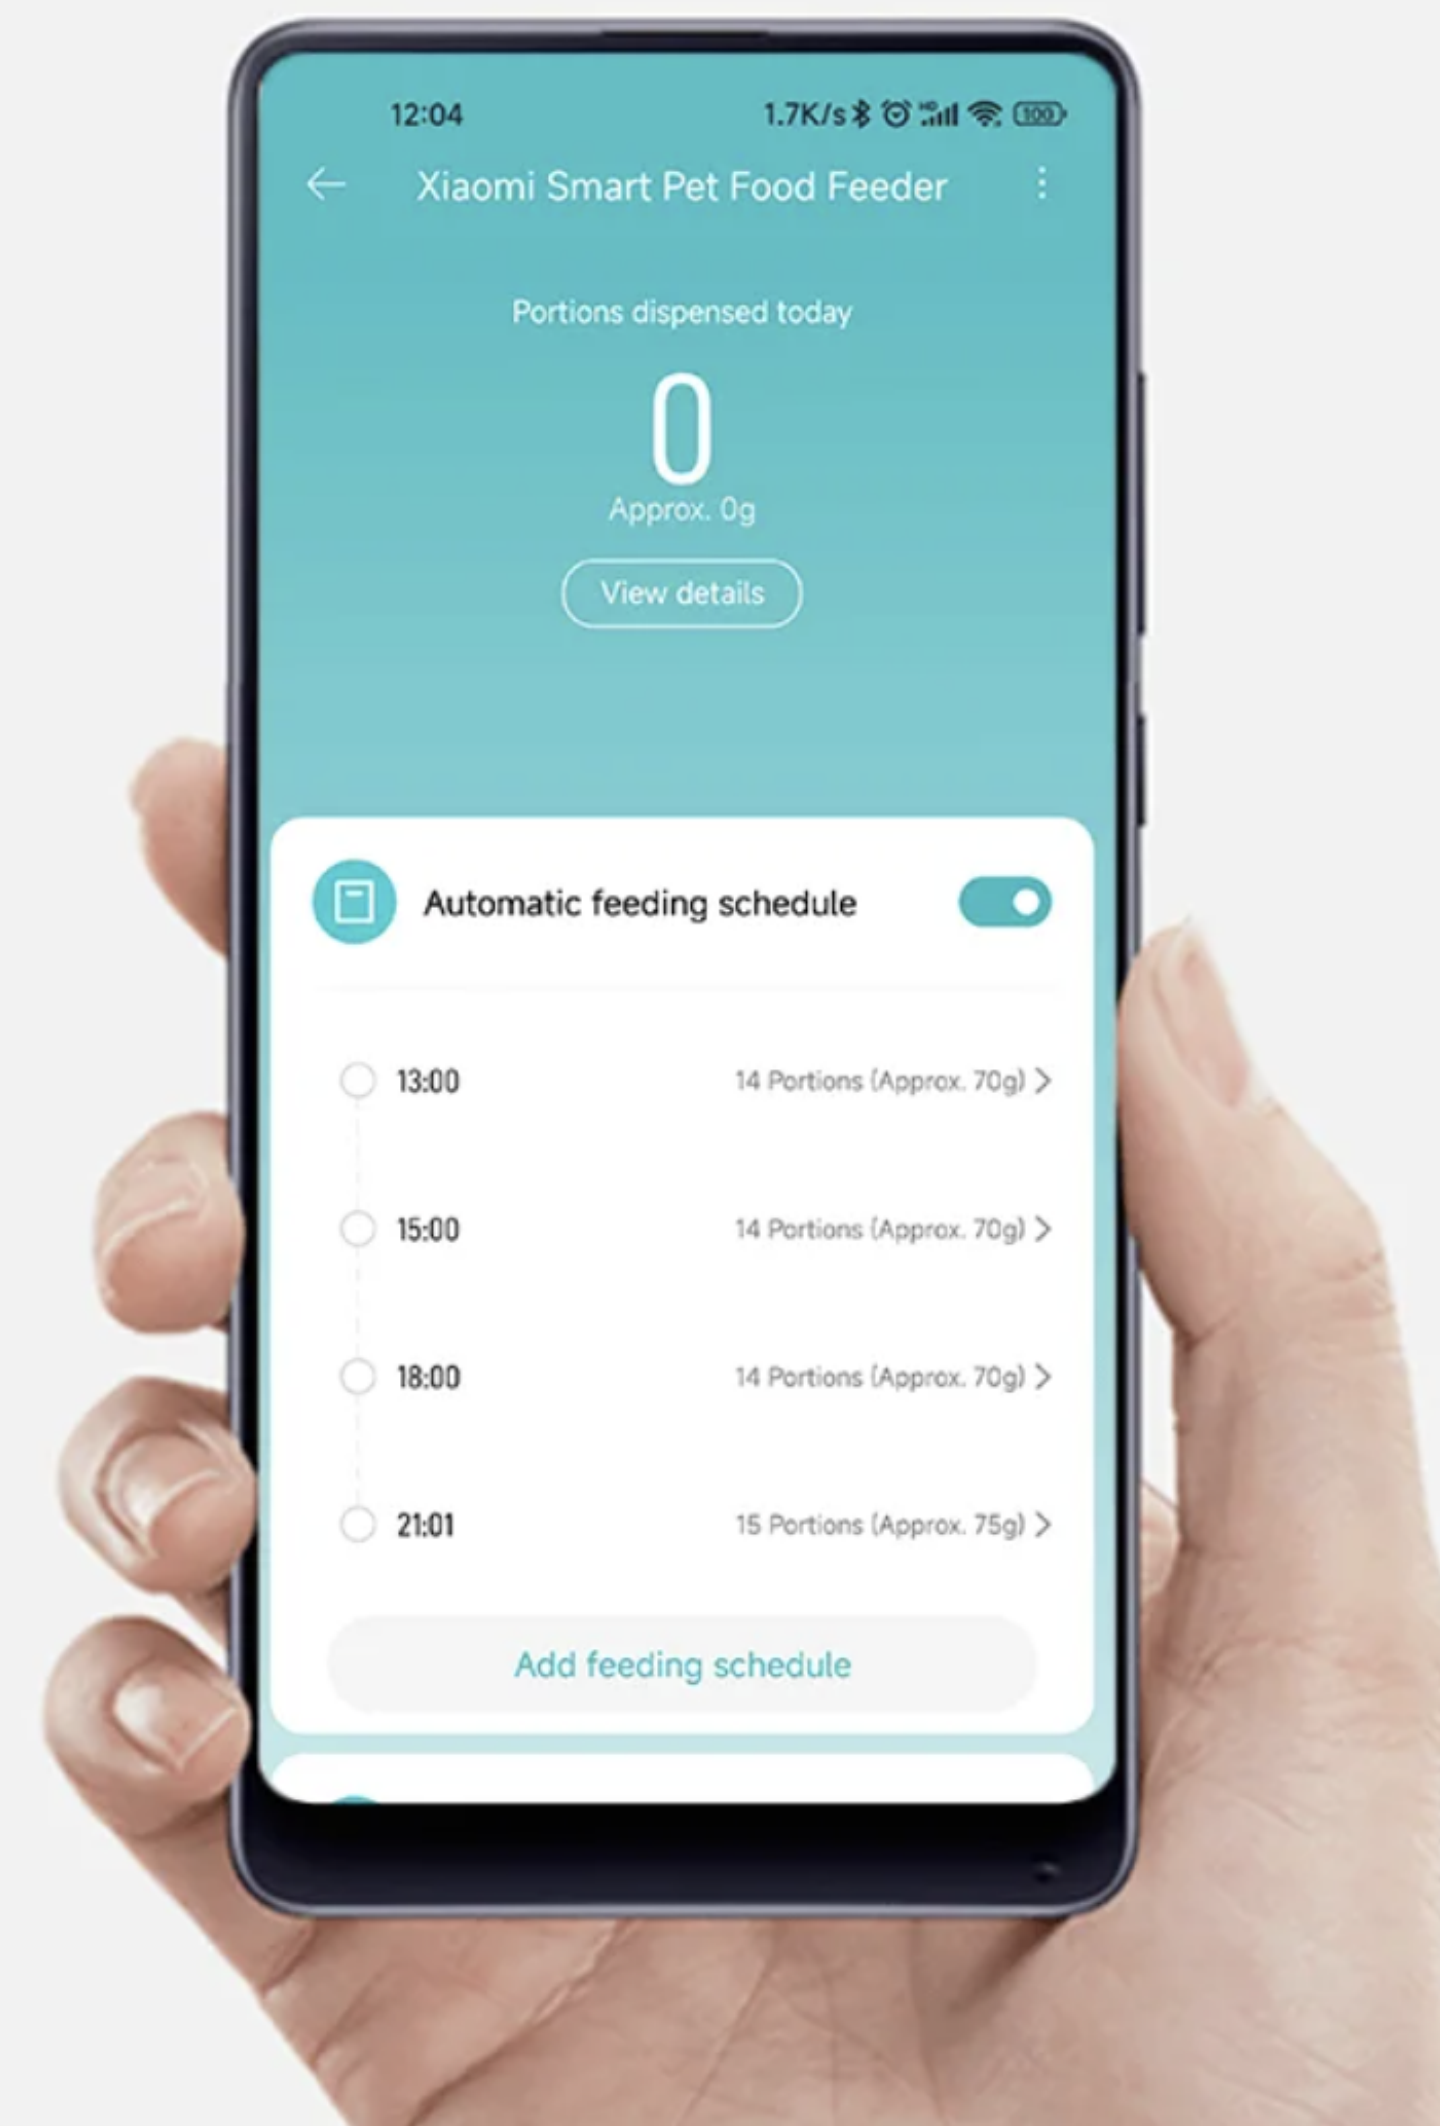

Programmed and scientific
feeding

Smart refill reminders via app

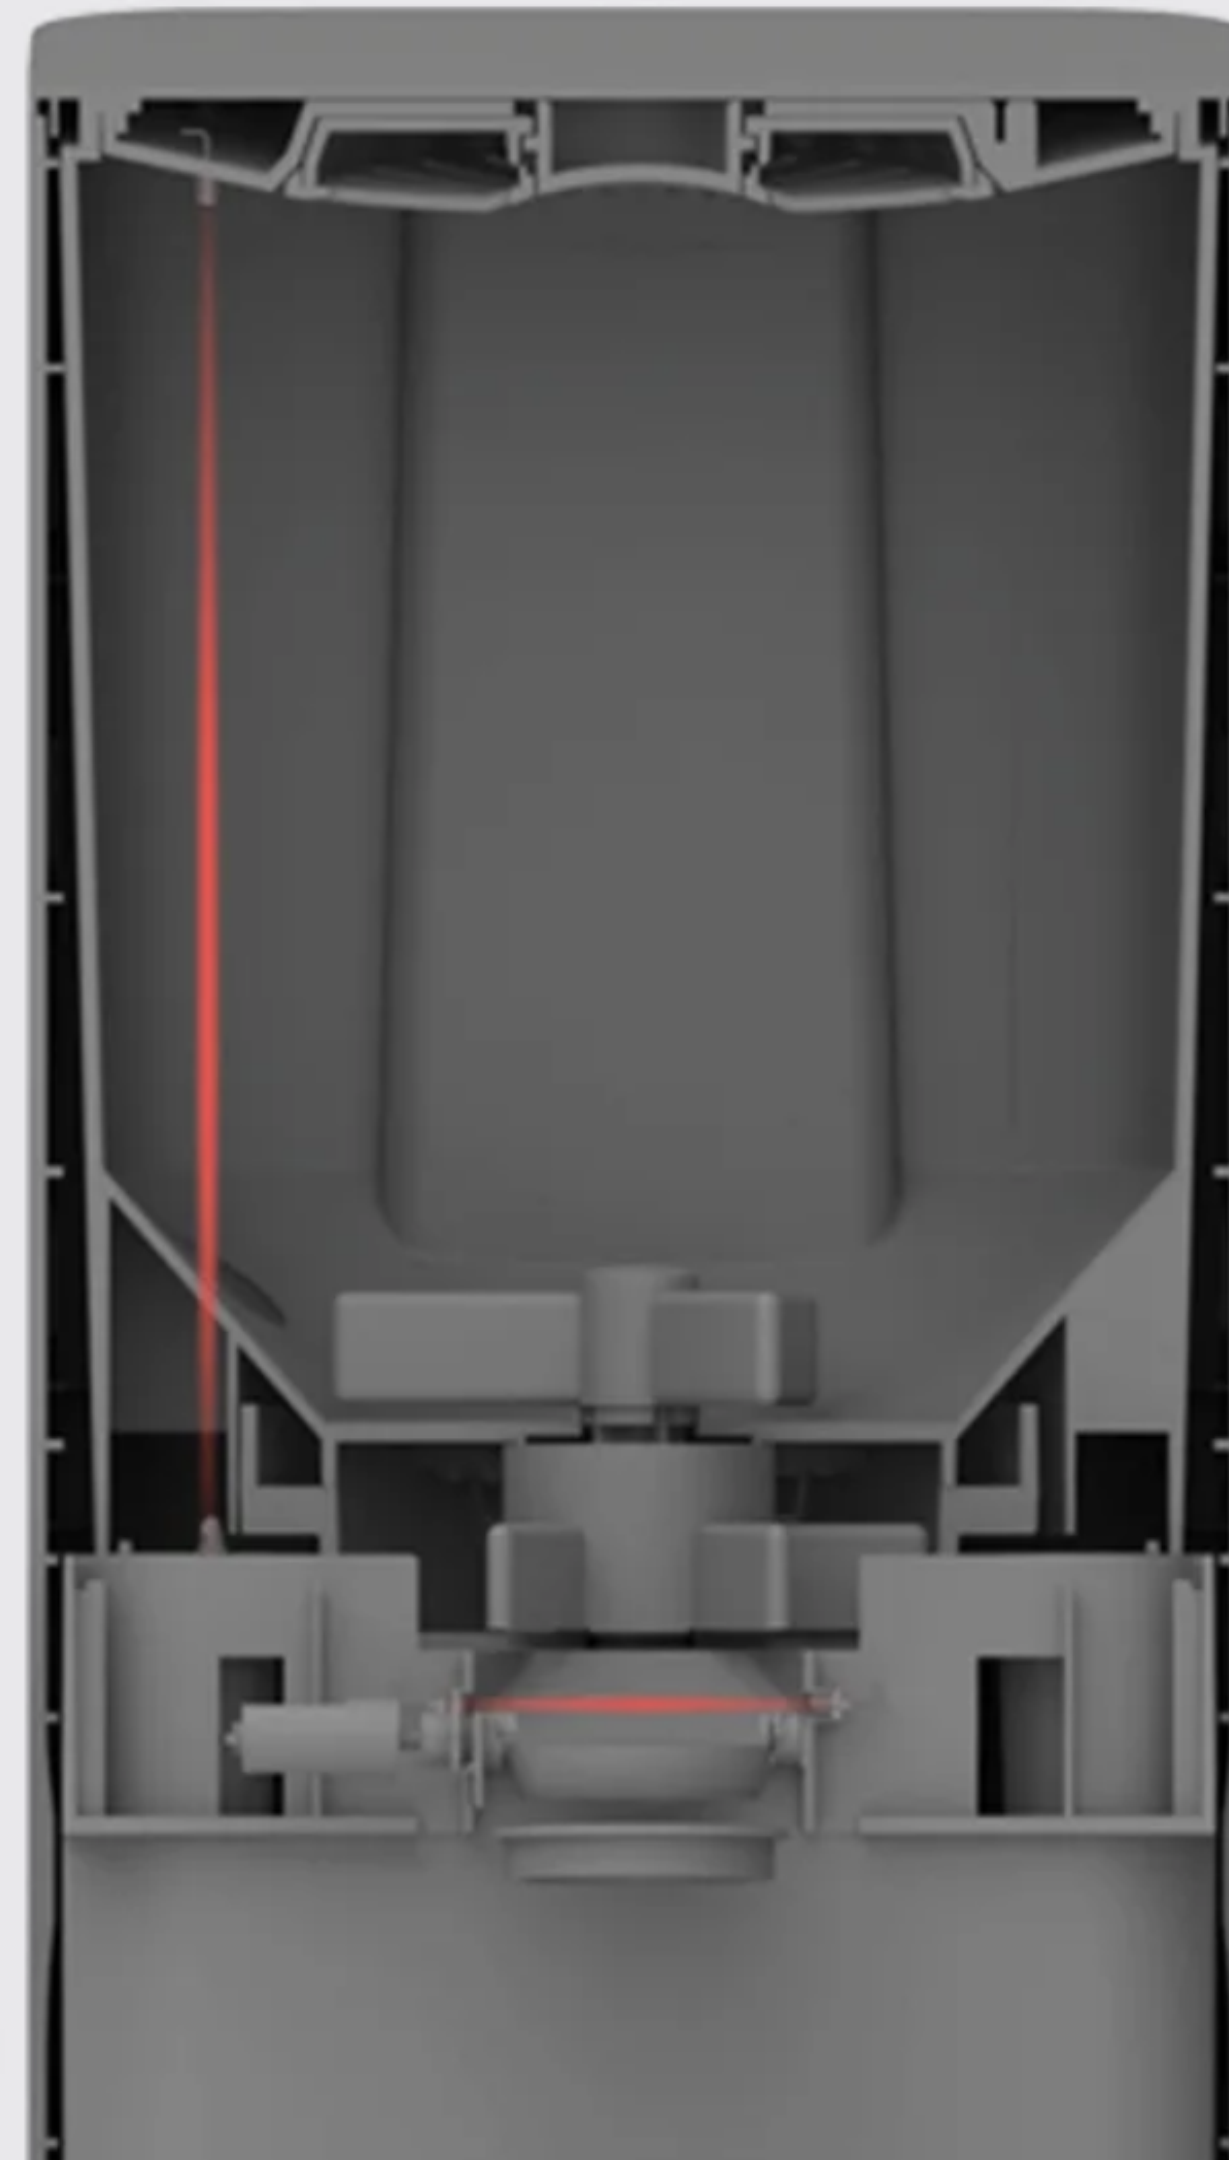

Tap to add food remotely using the app

Set fixed time and automatic feeding amount in Mi Home/Xiaomi Home APP; give supplementary food even when you are away from home

Real-time smart food level monitoring via the app

Two sets of sensors continuously monitor remaining food and delivery status. Food depletion or errors are indicated by the feeder light and via the Mi Home/Xiaomi Home app.

Scheduled feeding even when there is no electricity or internet

The saved supply plan and internal emergency power ensure regular distribution even in case of network or power outage.

Triple-seal sealing for fresh, dry and delicious food

360° ring silicone head gasket

Replaceable dehumidifier cartridges for the food container

Concealed rotary feeder cover

Stage 1: 360° silicone seal for freshness guarantee

The high-quality ring silicone gasket can effectively block the air, preventing pet foods from oxidizing over time.

Stage 2: replaceable internal dehumidifier cartridges in the food bowl

Moisture-proof, self-contained and replaceable desiccant cartridges keep all food dry and fresh.

Stage 3: concealed spherical "swivel" dispenser for freshness guarantee

Unique spherical seal design ensures freshness; Concealed delivery mechanism prevents damage from pet bites.

304 stainless steel usable for food

Food bowl, food mixer, dispenser blade and 304 stainless steel bowl; complies with the requirements for materials in contact with food. The food bowl can be disassembled for cleaning to effectively prevent oil build-up and keep pets clean.

Large capacity for long-term use

This product specially designed for cats and small to medium dogs; It can store about 1.8kg of dry pet food. This amount is enough for adult cats or small dogs for 15 to 20 days for pet owners' daily or short trips.

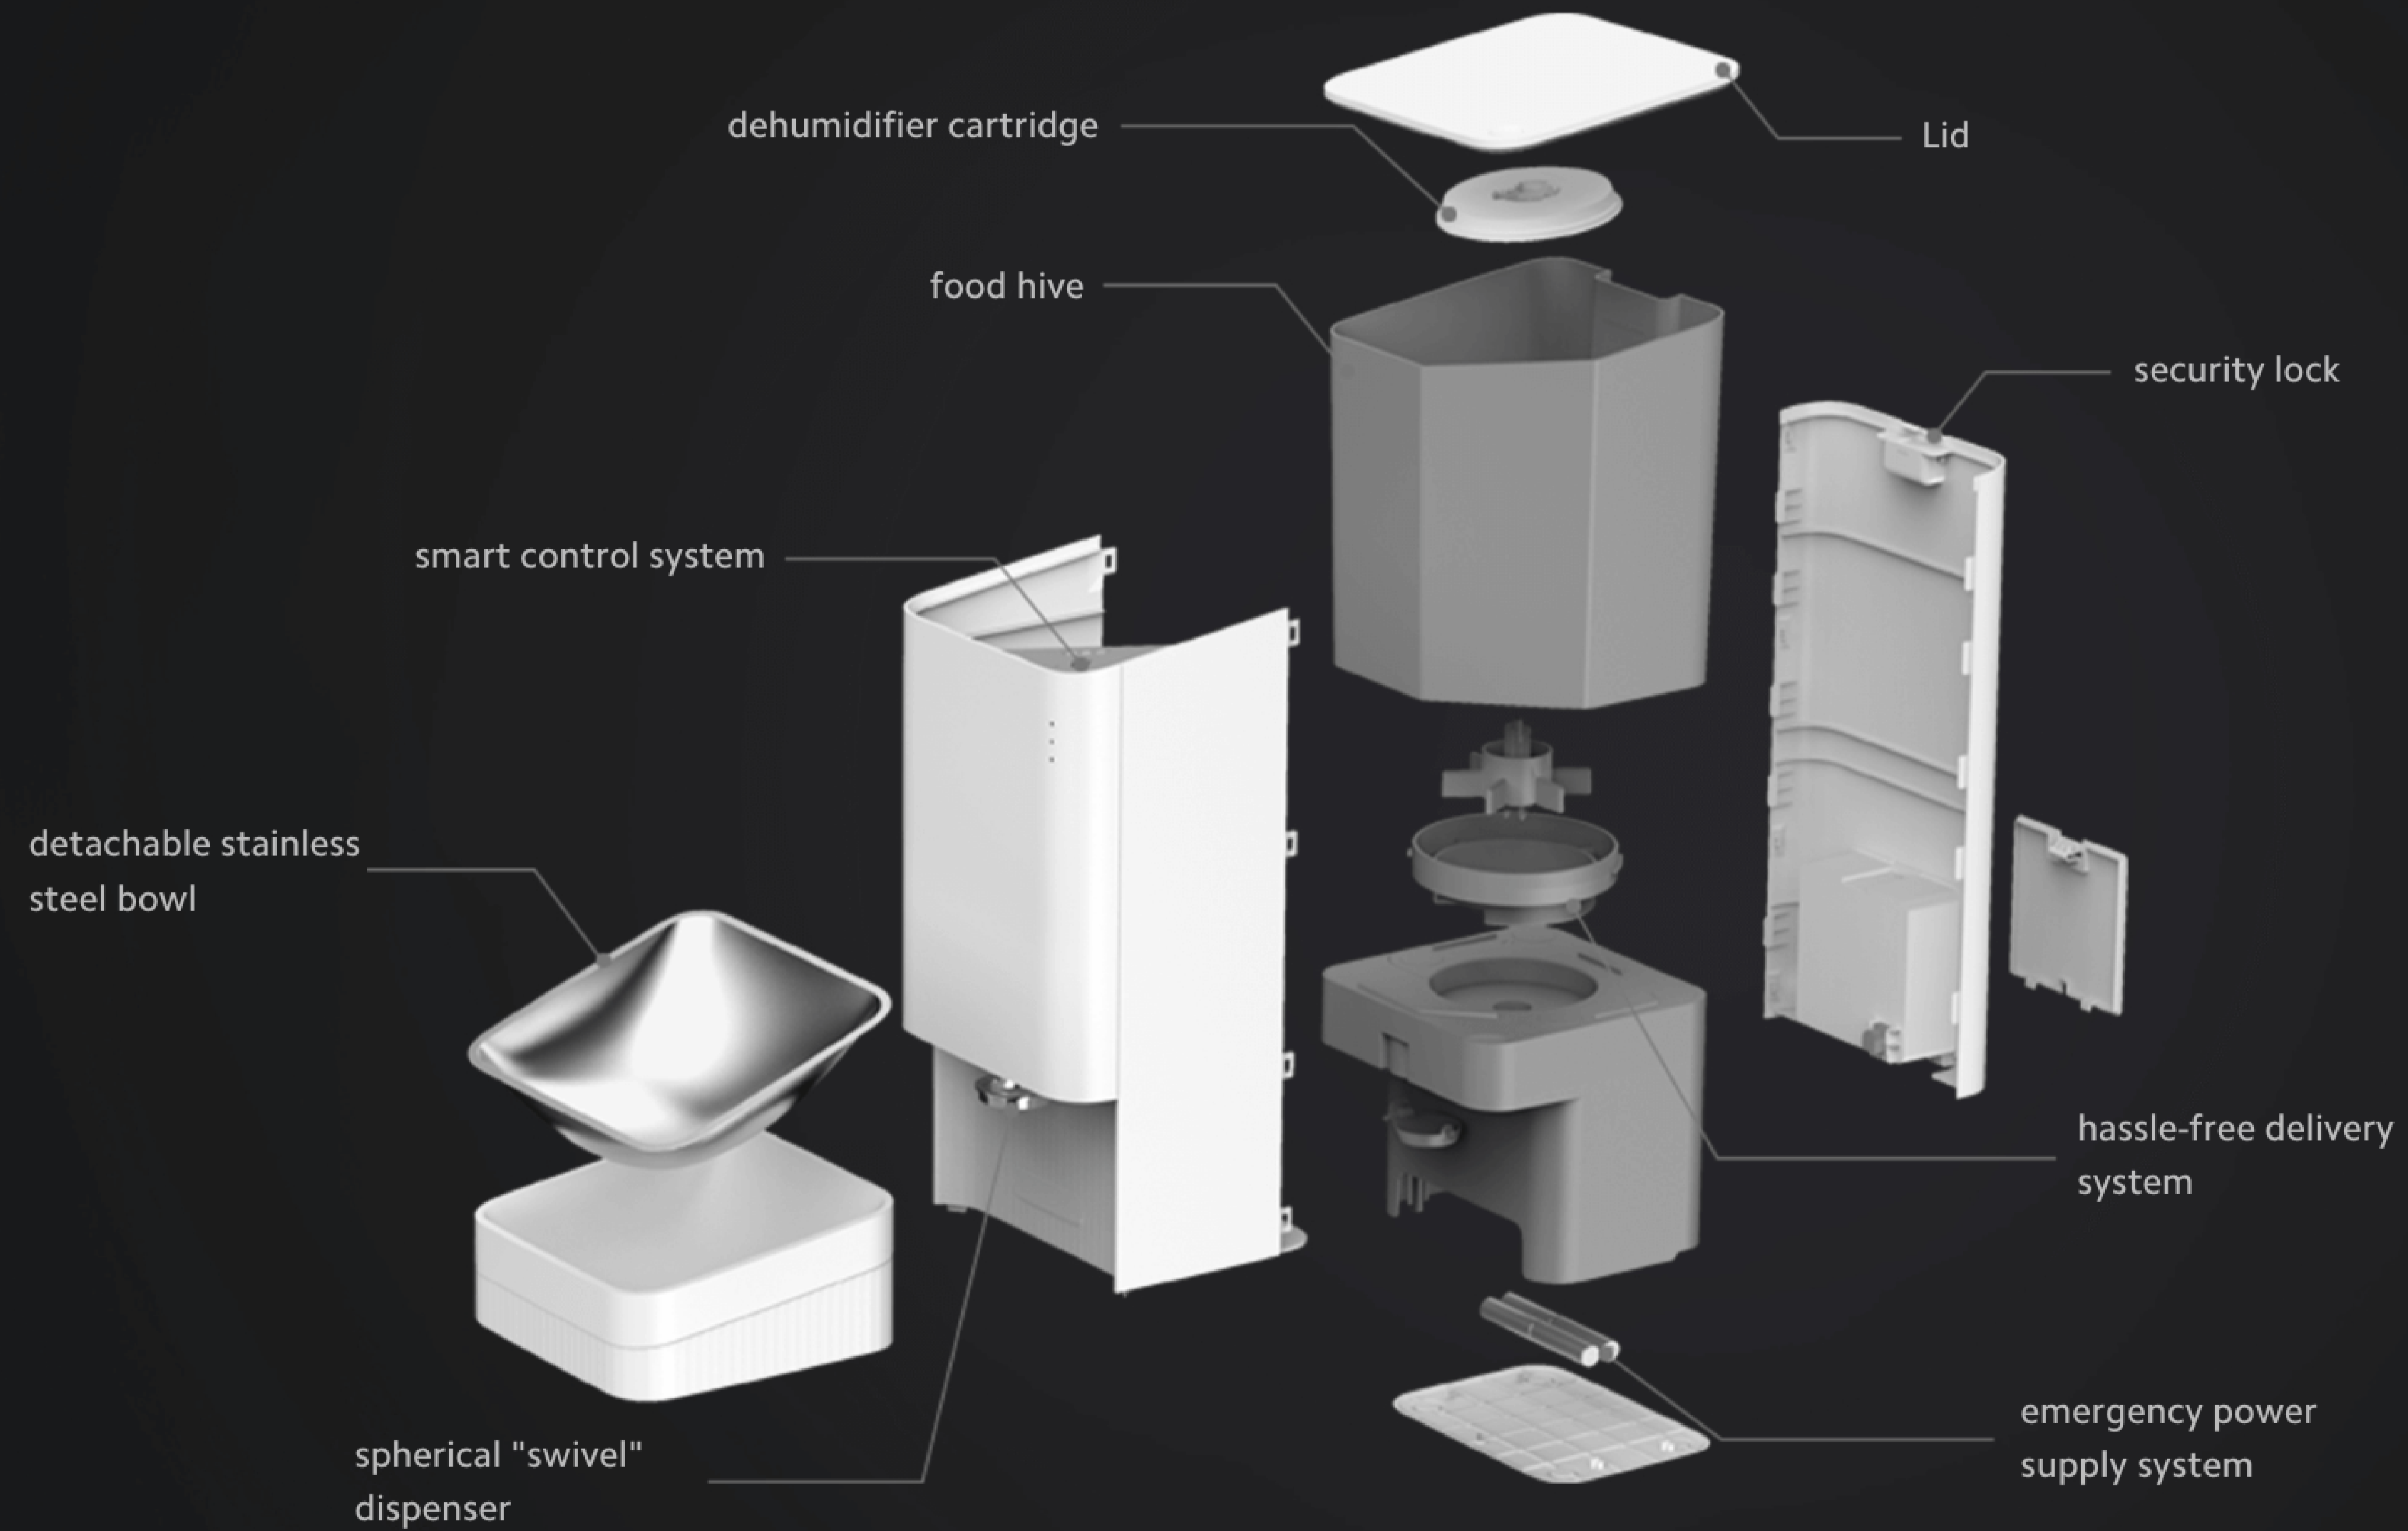

≈ 1.8 kg of dry pet food

≈ 20-day food supply

Intelligent design for scientific feeding

Meticulous security details

open door security lock

Prevent unwanted
interference from
pets or children

Prevents paw injuries

Braided nylon cable

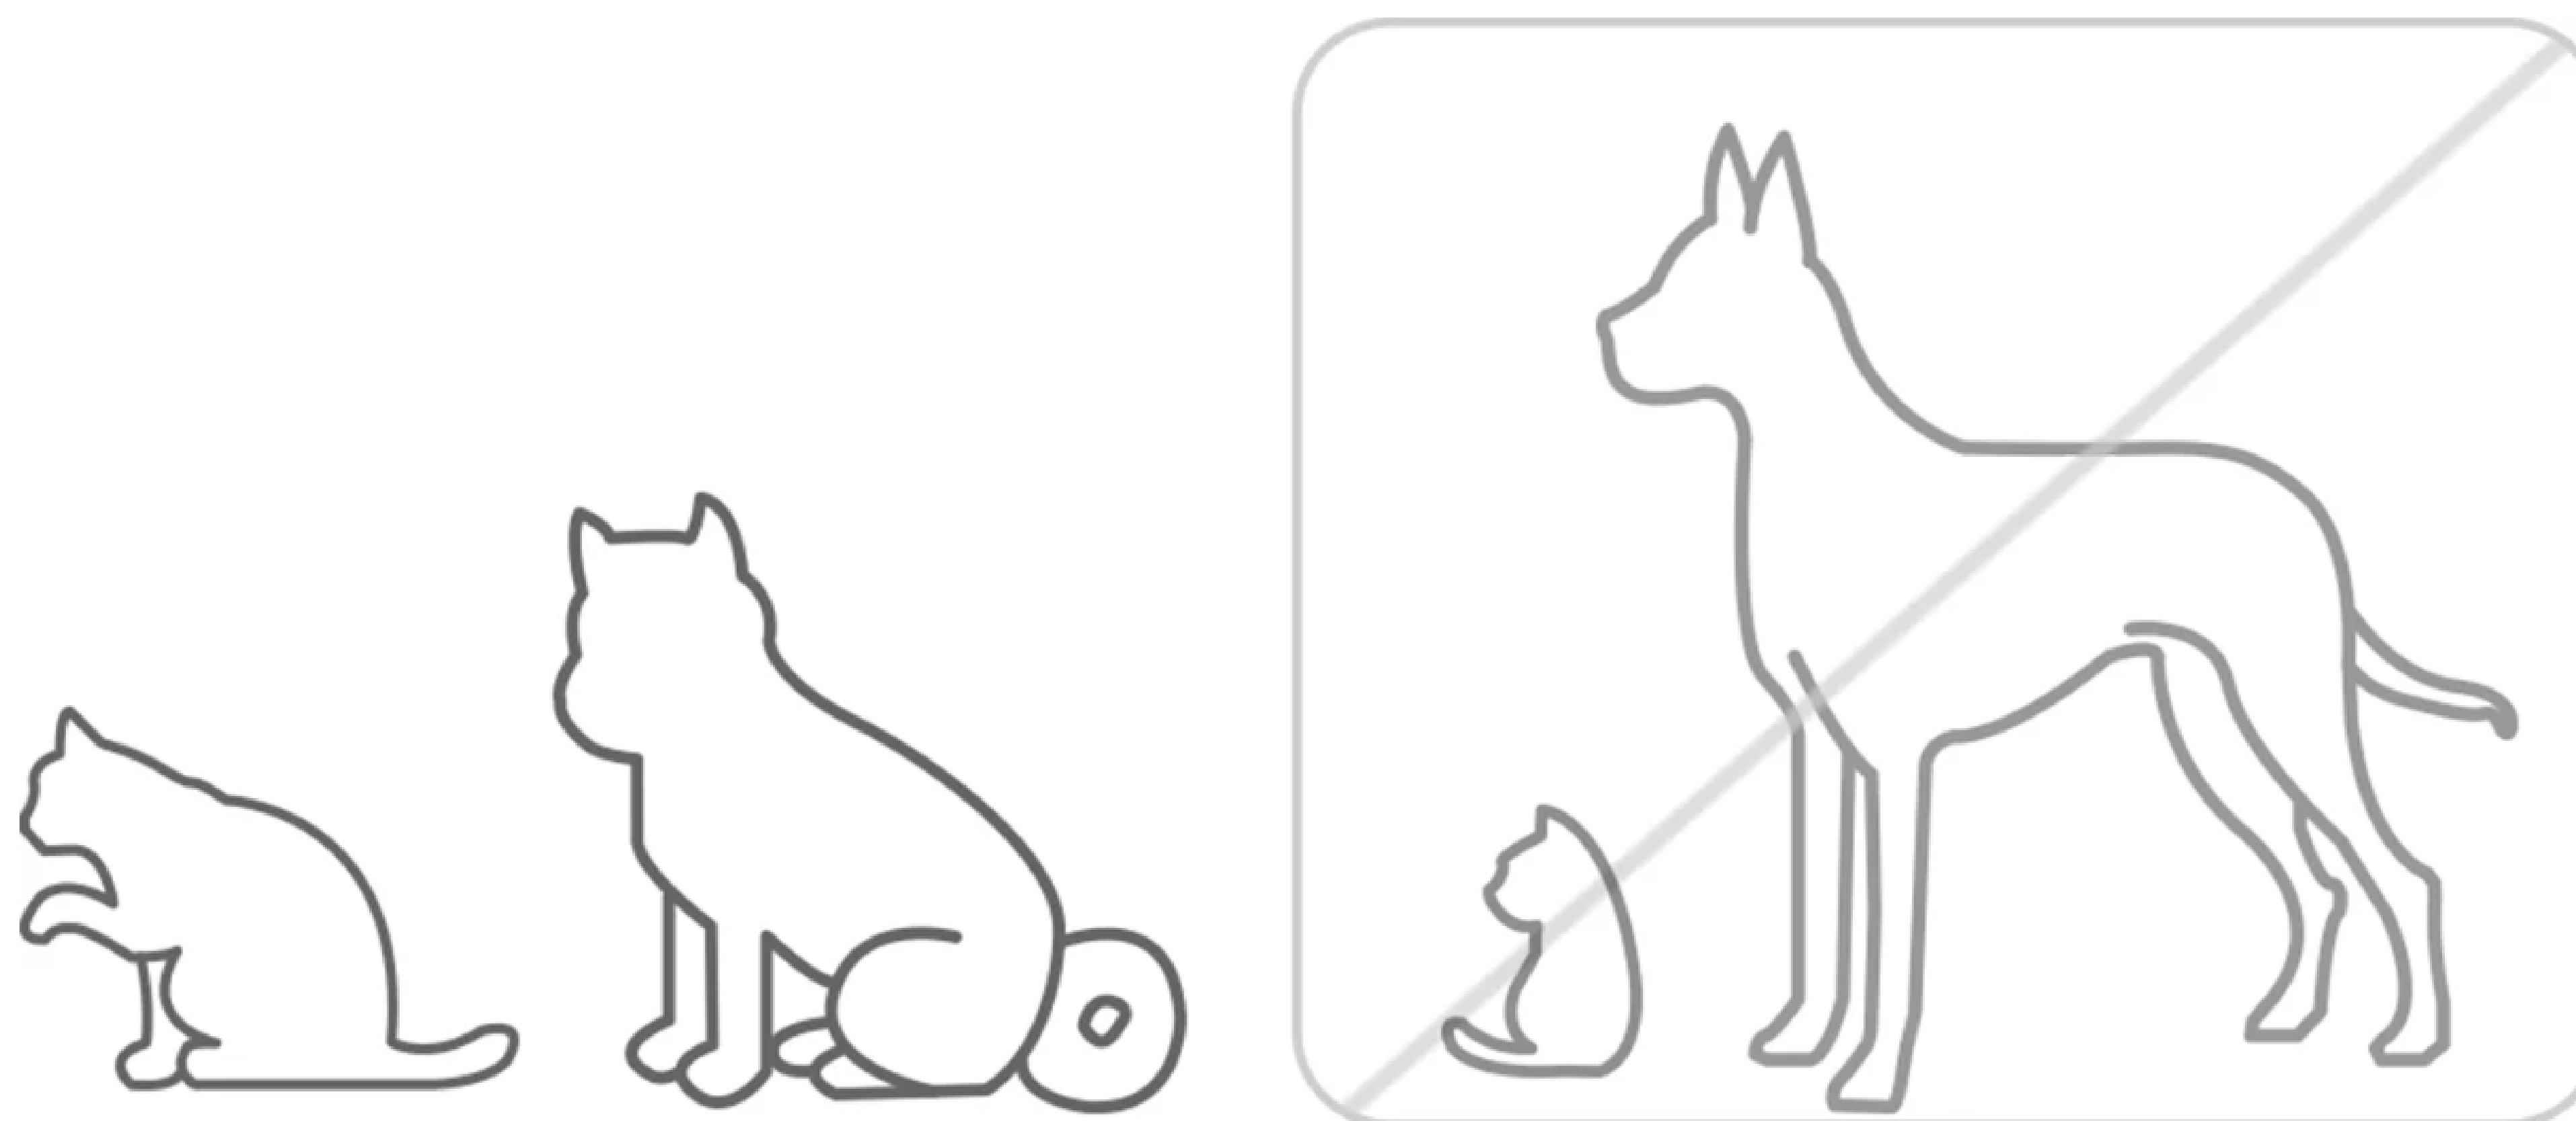

bite resistant

Storable power cord

Avoid tripping on power cord/food bowl

Suitable for cats and small to medium dogs*

Not recommended for dogs under three months old or large breed dogs

*Batteries must be installed before the emergency power supply system can be activated. Spare batteries must be purchased separately and only alkaline dry cells are supported. *Please refer to the operating instructions for details.

*Food bowl, food mixer, dispensing blade and 304 stainless steel food bowl comply with FDA regulations for food contact materials; audit report code: No. SHAEC2200090002; Testing organization: SGS.

The test was based on an adult cat weighing 5 kg (or a small dog weighing 10 kg) eating approximately 80-120 g of dry food per day for a period of approximately 15-20 days. Errors may occur in actual use due to food type, pet type, age, health and behavioral changes.

*The product is suitable for adult dogs with a shoulder height of less than 40 cm.

*It is recommended to replace the cartridge every month.

*All data mentioned on this page are from Maomao Gougou Lab unless otherwise noted. Test data may vary depending on environmental factors.
