200 cm

Standard USB-C port

Taking advantage of the widely used USB C port, Mi Braided USB Type-C Cable can be plugged in both directions for easy use in various environments.

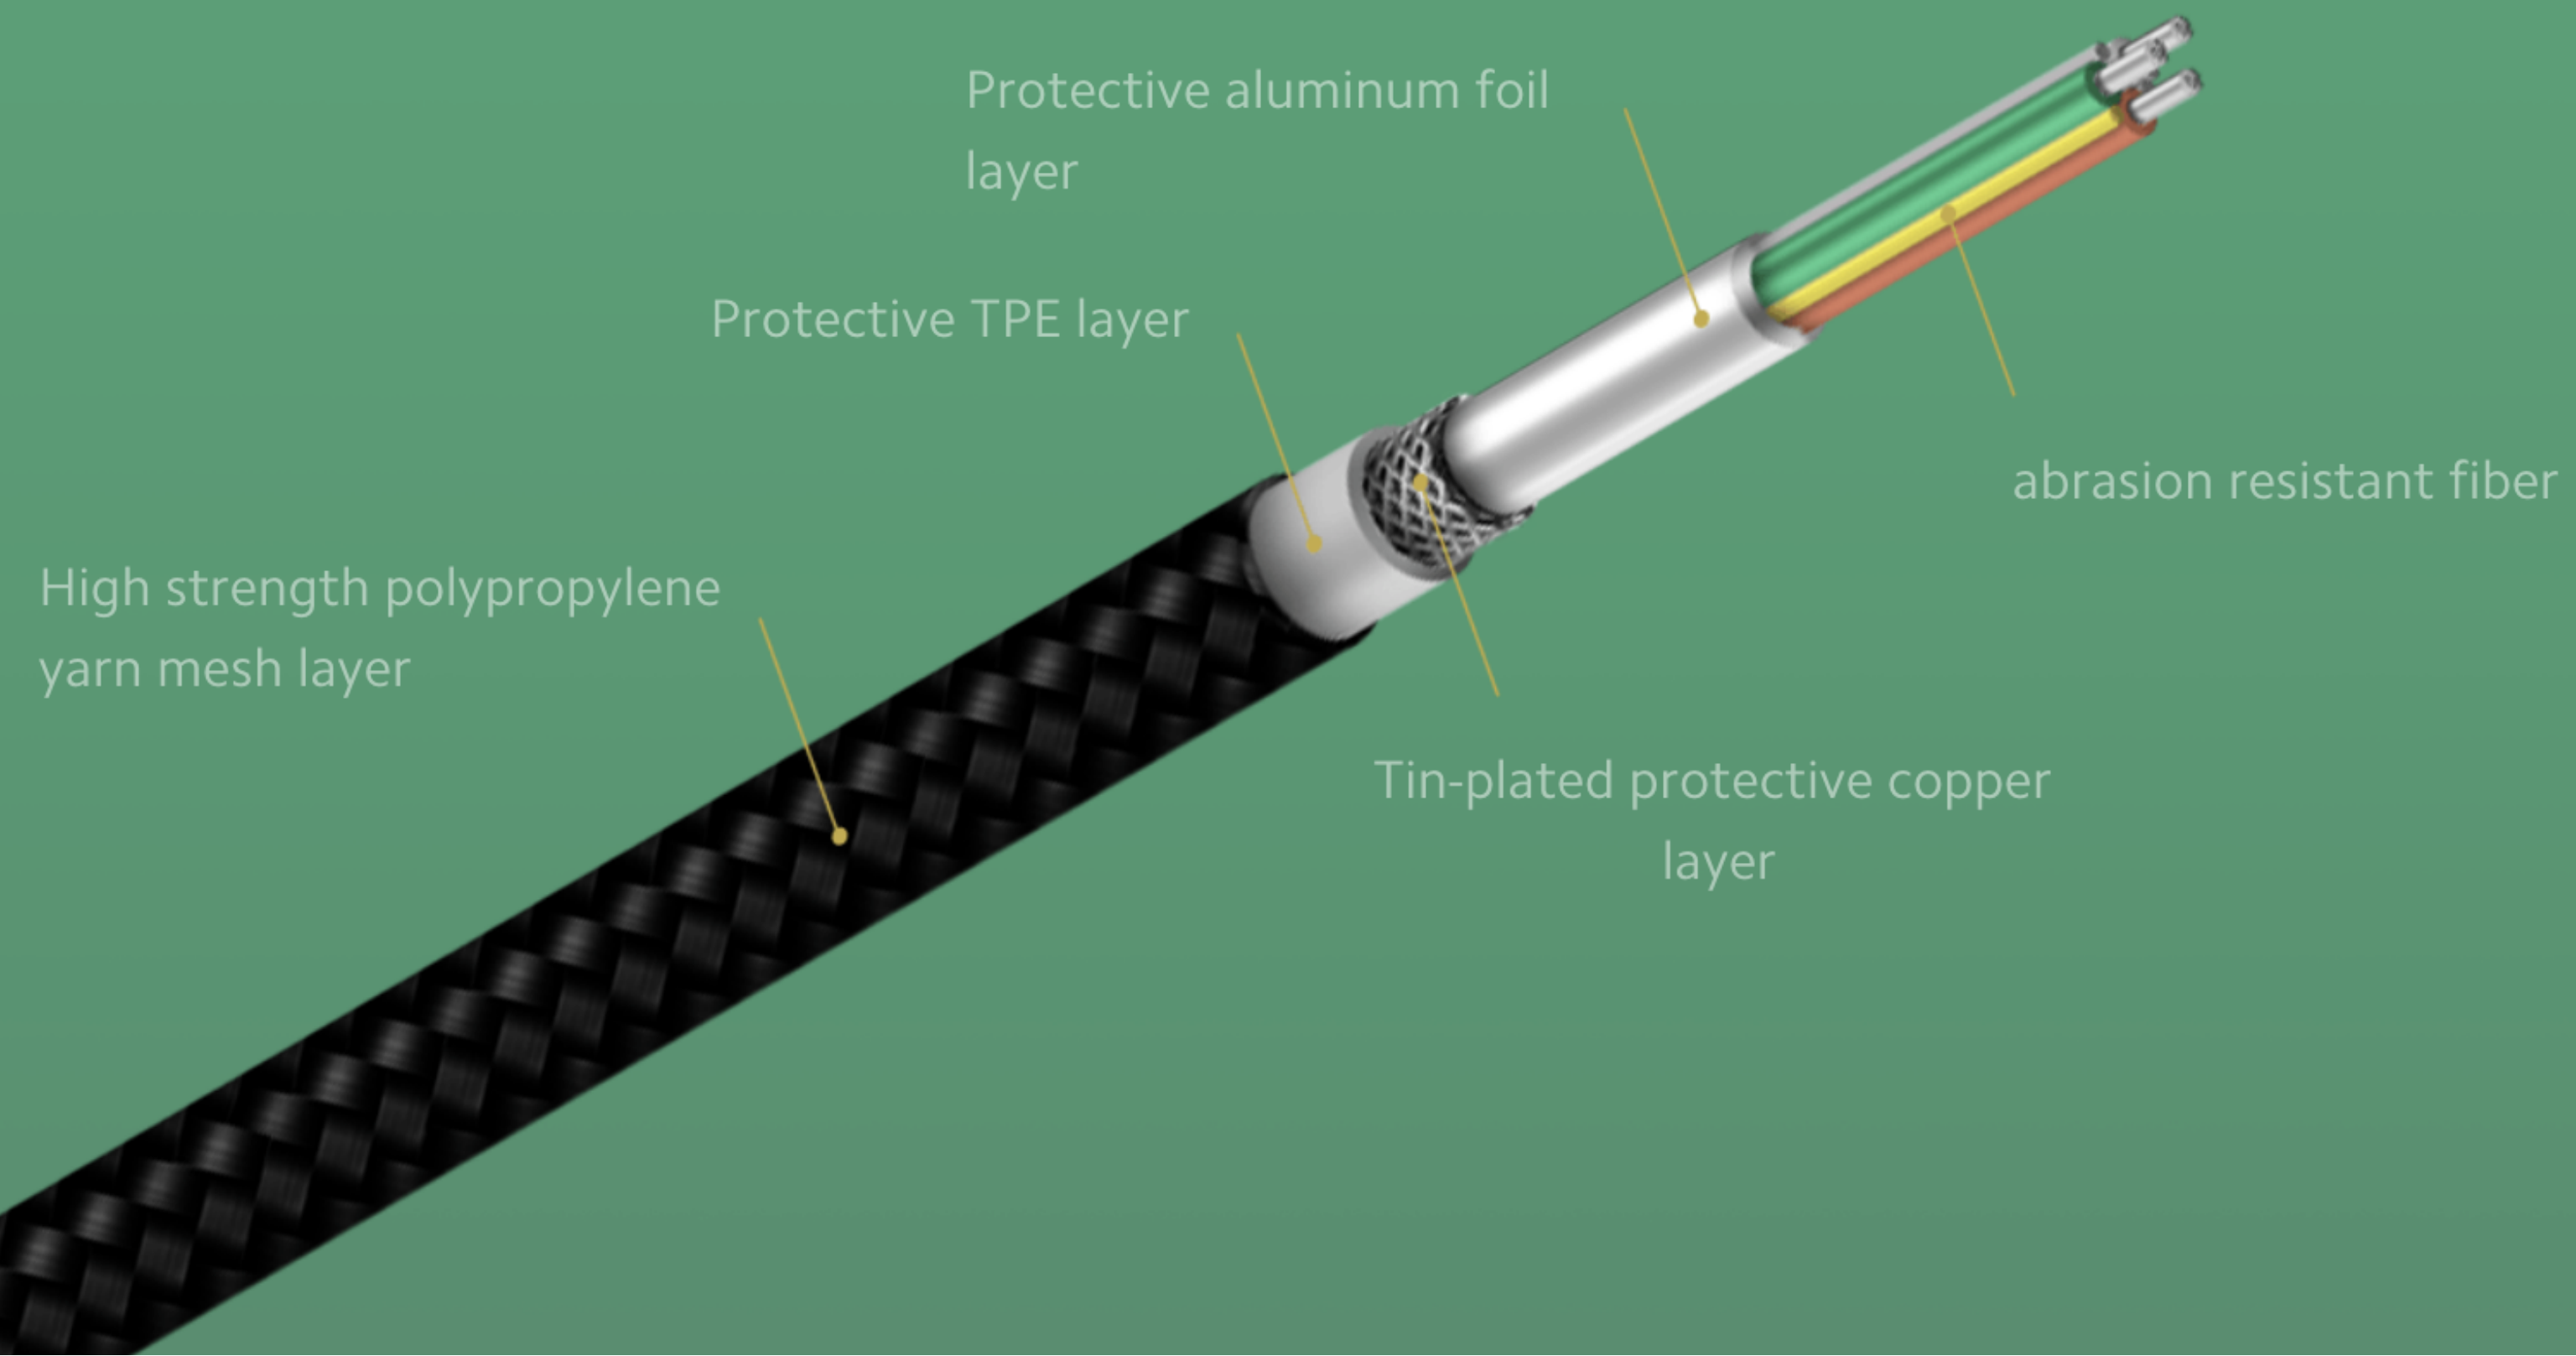

Integrated port

Mi Braided USB Type-C Cable comes with an all-new, coated design specially crafted to minimize cracks and damage to the sensitive protection sleeve.

Meticulously designed from the inside out

Various protective materials have been added under the braided layer of Mi Braided USB Type-C Cable, whose invisible parts are also meticulously designed, making the cable more robust and durable.

Robust, durable and tangle-free design

Reduces clutter on your desk

Supports multiple fast charging protocols
