Assistant*

A new era in the age of smart connectivity

With the smart Android TV™ system, Xiaomi TV Stick 4K brings you a new multimedia experience anytime, anywhere. Compact and portable design brings smarter life to your displays*.

Experience the wonderful experience of Android TV™ 11*

Xiaomi TV Stick 4K features Android TV™ 11, offering a simple yet immersive experience. Discover over 400,000 movies and shows in your favorite apps. Get 7,000+ apps from Google Play*. You can listen to music and play games, mirror from any device and more*.

Superior viewing experience

4K* ultra-high definition output combined with Dolby Vision® technology takes video quality to another level. Get involved in a vivid and immersive visual experience.

Surround sound* for the ultimate audio experience

Whatever your interests, be it music, games, movies or TV shows, the addition of Dolby Atmos® and DTS HD technology makes sounds more rich and real than ever before.

 **Dolby Atmos**

 **dts HD**

Make your TV smarter with Google Assistant*

With Google Assistant* you can enjoy quick access to tons of fun content, search for information and control your smart home devices. It also brings the convenience of speech recognition to non-smart TVs.

small but mighty

The compact form factor of the Xiaomi TV Stick 4K has a quad-core processor that delivers powerful performance. Whether you're watching a high-definition movie, listening to high-quality music, or playing games, speed and fluidity are what you expect.
