

# Mi Cordless Screwdriver 3.6V

Easy to use thanks to the patented cordless one-piece design

High 5-N.m Torque | 2000-mAh High-capacity Battery | 12 S2 Steel Bits | Integrated Storage

## Winner of the iF Design Award

As one of the four leading design awards in the world, the iF Design Award is known as the "Oscar of the design community".

## Powerful magnetic motor

## Ultra-high torque

High 5 N.m torque thanks to the powerful magnetic motor and all-metal gearbox. Makes installation of light fixtures, home furnishings, electronics and other items simple and easy.

5<sub>N.m</sub>

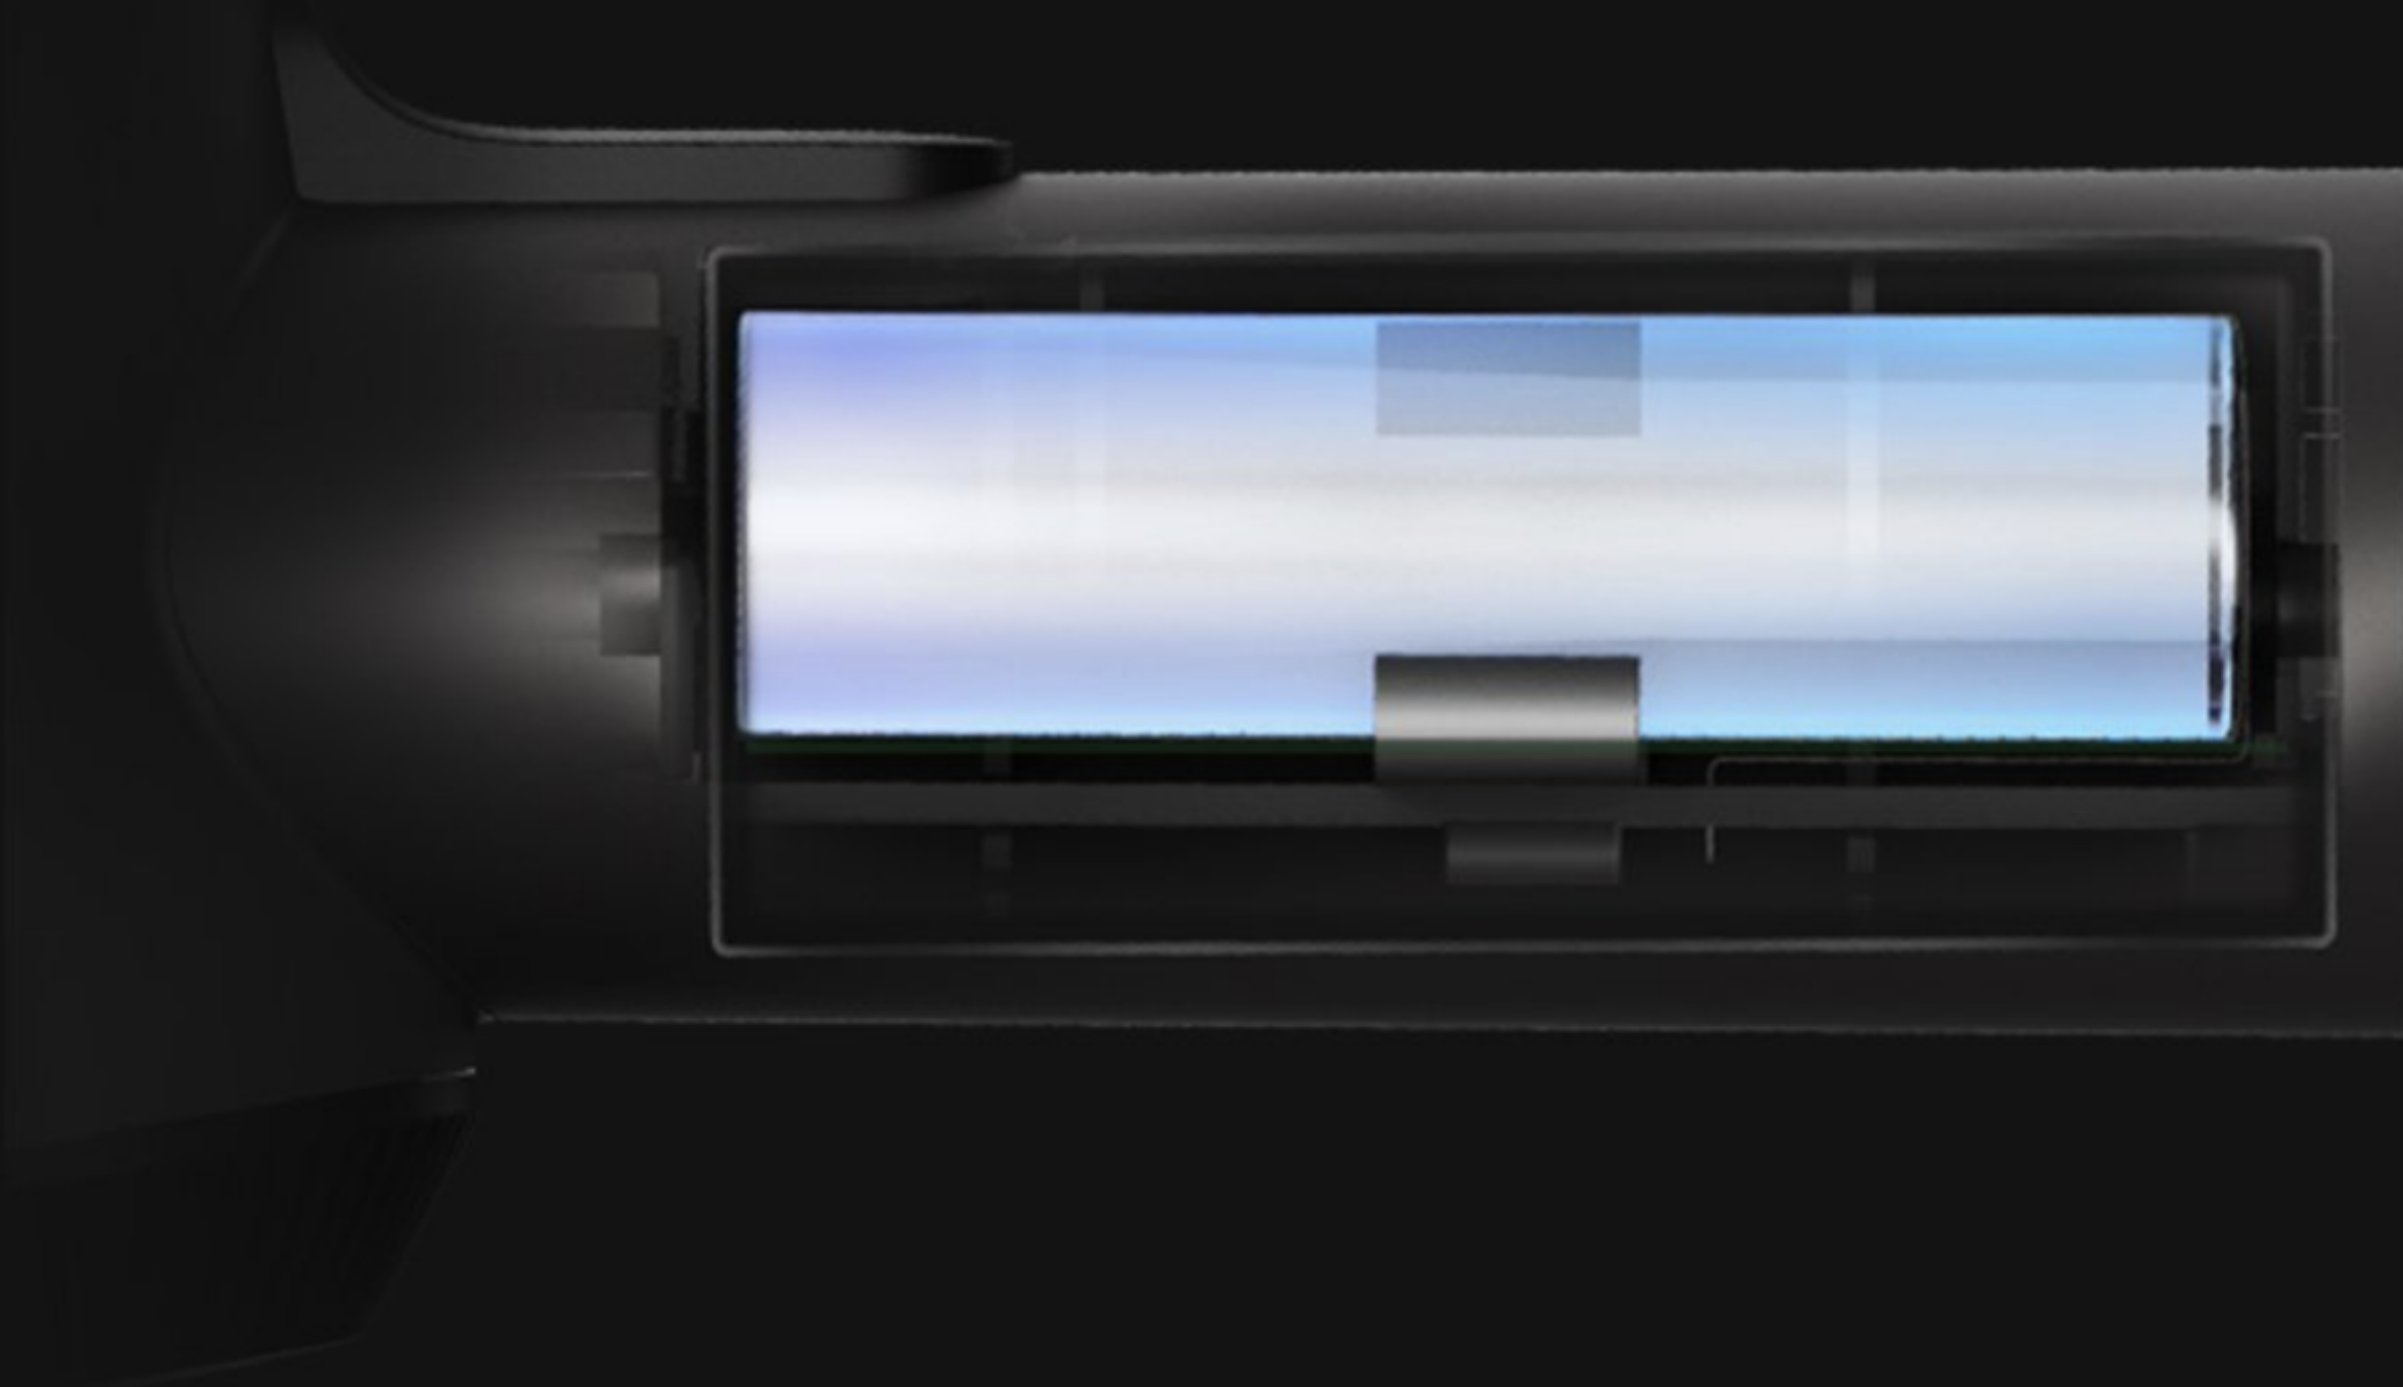

## Cordless and portable

## Extra-long battery life

Handles up to 180 screws on one full charge with the high-capacity 2000 mAh battery. USB-C charging port for cordless portability. Insulated, flame-retardant, removable battery case design.

2000<sub>mAh</sub>

## Patented, one-piece body design

Aesthetically pleasing and reliable thanks to the one-piece, screw-free design. High-quality engineering plastic and an innovative one piece design: fine craftsmanship and 2-coat lacquer finish for a comfortable grip, with anti-dirt and anti-rust treatment.

All-in-one,  
screw-free design

High-quality  
engineering plastic

2-coat  
UV lacquer

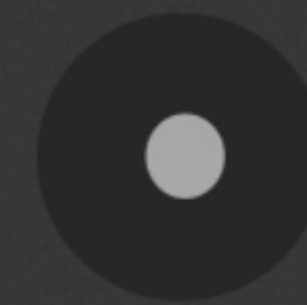

## Innovative dial One-hand spin-direction toggle

The innovative three-shift dial makes it easy to use the screwdriver with one hand and to work with greater precision.

# S2 high-quality steel bits ×12

## Added extension rod

The 12 high-quality S2 alloy steel bits are hard, durable and have a high-precision fit. Use the 60 mm added extension rod in tight or hard-to-reach places—perfect for most at-home needs.

High-quality S2

Excellent hardness  
and toughness

Precise fit

Offers  
exceptional safety

## Clear illumination with the LED ring light

Three LEDs form a circular light strip with automatic lighting. Press the start button to turn on the lights for convenient use in low-light environments.

## Quality parts, integrated storage

Bits and the extension rod can be placed in the storage container. The storage pouch holds the type-C charging cable and screwdriver. Easy to store and carry for quick and simple access that prevents loss.
